Doug Rogers (DIS) &  
MaryBeth Sweeten (DIS)

DISCUSSION	This is from DIS.		
	In our class there were 60 students from Olympia, California, Idaho, Utah, Alaska and Alabama. The different disciplines were from State Government, like DIS City and County Governments, Fire and Law enforcements. We had a mayor, city managers, county and State officials as well.		
	We all were working on the situations of an earthquake that happened in a city and county that touched on all our disciplines, what ever our work environment normally is. The FEMA training staff placed me in Planning and Doug was in Recovery. FEMA paired us with others who had similar responsibilities; they obtained our information from our applications we had submitted. It was a very good mix.		
	We had to complete 3 different exercises. In fact the last exercise, we were in the Coordination Group, got out 2 hours early because we were anticipating what our needs were faster than they could feed us information. The flow was good and communication went up and down the chain equally well. The exercises were very elaborate, with live TV telecasts piped into our different classrooms; we also had access to the National Fire Academy personnel and other FEMA instructors
